1.1 Philosophy Statement

Relevant Laws and other Provisions

The laws and other provisions affecting this policy include:

- Education and Care Services National Law Act 2010 and Regulations 2011
- National Quality Standards
- 'My Time, Our Place' Framework for School Age Care

This Philosophy statement provides the foundation for all activities, policies and procedures of Jindalee School Age Care Program. Wherever there is uncertainty as to the Service's policy or procedures on any issue, the Service uses these principles and philosophies to help resolve the issue. The written policies and procedures of Jindalee School Age Care Program have been developed, and will be monitored and reviewed with these values in mind.

Jindalee School Age Care Program believes that each child has the right to be an active member of the community in which they live, to express their opinions and have their views considered in any decision that may affect them. We believe that the best interests of the children and their right to play as well as learn and develop in a safe and nurturing environment is the primary consideration in all decision making at the service and is visible in the actions, interactions and daily work with the children.

We believe that children are active learners from birth and through rich, engaging environments and meaningful interactions, we can build a foundation for successful lifelong learning.

We acknowledge that parents and families are the child's primary nurturers and that respectful, collaborative relationships strengthen the capacity and efforts of families and Jindalee School Age Care Program services to support their children and promote each child's health and wellbeing. We believe that the intrinsic worth of all children and their families, their strengths and their right to equitable access and participation in the community is clearly visible in all aspects of service delivery.

Jindalee School Age Care Program believes that children have the right to have their individual and cultural identity recognised and respected and we value Australia's Aboriginal and Torres Strait Islander cultures as a core part of the nation's history, present and future.

Definition

'Play is a freely chosen, personally directed, intrinsically motivated behavior, normally associated with recreational pleasure and enjoyment"

'Play is often interpreted as frivolous; yet the player can be intently focused on their objective, particularly when play is structured and goal-oriented. Accordingly, play can range from relaxed, free-spirited and spontaneous through frivolous to planned or even compulsive. Not only does play promote and aid in physical development, such as hand—eye coordination, but it also aids in cognitive development and social skills.

Educators are responsible to advise the Director and/or Coordinator (or other responsible staff member) to ensure that there is an adequate store of disposable gloves available at all times.

Hand Hygiene

The best way to prevent the transmission of disease is through effective hand hygiene, which removes both dirt and germs from the hands. This can be done with soap and running water, or by using a hand rub.

- before handling, preparing and eating of food;
- prior to and after giving First Aid;
- after toileting, handling of animals or other activities which could lead to the spread of infection;

• after contact with/cleaning of body fluids (blood, mucus, vomit, urine, faeces etc).

Hand Rubs

Hand rubs do not replace soap and running water however, they are effective in certain situations, such as when soap and running water are not available. To use a hand rub:

- Apply the recommended amount onto dry hands;
- Rub hands together so the hand rub comes in contact with all parts of the hands;
- Keep rubbing until the cleaner has evaporated and hands are dry.

Children with visible dirt, grease or food on their hands should be encouraged to clean their hands with soap and water, rather than use a hand rub.

Hand rubs will be kept out of reach of children and only used with adult supervision.

4.6 Medication Policy

In the interests of health and wellbeing of the children, Jindalee School Age Care Program will only permit medication to be given to a child if it is in its original packaging with a chemist label attached. The chemist label must state the child's name and dose of medication required.

The service recognises and acknowledges the skill and competence of children in working collaboratively with families to enable children to self-administer medications, with prior parent authority.

Relevant Laws and other Provisions

The laws and other provisions affecting this policy include:

- Education and Care Services National Law Act, 2010 and Regulations 2011
- Duty of Care
- NQS Area: 2.1.1, 2.1.4; 2.3.3; 4.2.1; 6.1.1; 6.2.1; 6.3.2; 7.1.2; 7.3.1, 7.3.2; 7.3.3, 7.3.5.
- Policies: 4.1 General Health and Safety, 4.10 Anaphylaxis Management, 4.11 Emergency Health and Medical Procedure Management, 4.15 Asthma, 9.2 Enrolment, 10.8 Information Handling (Privacy and Confidentiality).

Parents will be requested, (see Policy 9.3 – Communication with Families) and initial enrolment procedures (see Policy 9.2), to respect this Medication Policy and, wherever possible, to administer any prescribed medication to their child before or after attending the service, rather than requesting the service to do so, unless absolutely necessary.

Educators will only be permitted to administer medication to a child if it is:-

- in its original package with a pharmacist's label which clearly states the child's name, dosage, frequency of administration, date of dispensing and expiry date; and
- accompanied by a Medication Authority form, completed by the parent/guardian.

All medication will be stored in a locked cupboard or similar storage receptacle. Storage should prevent unsupervised access and damage to medicines eg. some may require refrigeration.

All medication will be administered by the Director and/or Coordinator (or an educator nominated by the Director and/or Coordinator who is duly qualified in first aid) and witnessed by another educator. Administration of medication will be recorded in a medication administration register.

The Director /or Coordinator and educator witness must fill out and sign the register with the parent signing acknowledgement at the end of the day.

Individual illness management plans will be developed if necessary in conjunction with the Director and/or Coordinator or a qualified first aid educator, parent/guardian, child and other health/educational professionals if required.

Children self-administering medication

In all instances of children self-administering medication, the relevant authority form will be completed by the parent/guardian, prior to the child administering the medication.

For children who require regular asthma medication, an Asthma Form will need to be completed by the parent/guardian to advise the Director whether their child will be responsible for administering their own medication or will require supervision and full details of how, when (i.e. at what intervals) and by whom all such treatment is to be administered.

For diabetes or other similar ongoing medications, parents will be required to advise the Director and/or Coordinator in writing whether their child will be responsible for administering their own medication or will require supervision and full details of how, when (i.e. at what intervals) and by whom all such treatment is to be administered.

****Please Note**** The Education and Care National Regulations 2011 (part 4.2, 90 (2)) states that "*The medical conditions policy of the education and care service must set out practices in relation to self-administration of medication by children over preschool age if the service permits that self-administration."*

4.8 Sun Safety Policy

Rationale

Queensland has the highest rate of skin cancer in the world. Of all new cancers diagnosed in Australia each year, 80 per cent are skin cancers. Given that children in childcare are there during peak ultraviolet radiation (UVR) times throughout the day, early childhood settings play a major role in both minimising children's UVR exposure and providing an environment where policies and procedures can positively influence long-term behaviour.

Skin damage, including skin cancer, is the result of cumulative exposure to the sun. Research shows that sunburn contributes to skin cancer and other forms of skin damage such as sunspots, blemishes and premature ageing. Most skin damage and skin cancer is therefore preventable.

Ultraviolet radiation (UVR) levels are highest during the hours that children are at childcare settings. As children will spend a portion of their day outdoors, we are committed to protecting them from harmful effects of the sun.

The rationale for this policy was provided by the Queensland Cancer Council and is consistent with their Sun Smart Policy Guidelines for Early Childhood Settings

The purpose of this Sun Safety Policy is to ensure that all children, staff and visitors attending our service are protected from skin damage caused by harmful UVR from the sun.

Jindalee School Age Care Program will provide a SunSmart environment that support Sun Safe practices and create an awareness of the need to reschedule outdoor activities to support Sun Safe practices.

Relevant Laws and other Provisions

The laws and other provisions affecting this policy include:

- Education and Care Services National Law Act, 2010 and Regulations 2011
- Work Health and Safety Act 2011
- Duty of Care
- Cancer Council Queensland's SunSmart Policy Guidelines Early Childhood Cancer Council Australia
- NQS Area: 1.1.3; 2.1.1; 2.2.2; 2.3.2; 3.1.1; 4.2.1; 6.1.1, 6.1.3; 6.2.1; 7.1.2; 7.3.2; 7.3.5.
- Policies: 3.7 Physical Activity, 4.1 General Health and Safety, 4.4 Preventative Health and Wellbeing, 9.2 Enrolment, 9.3 Communication with Families.

Procedures

Sun safety will be practiced at our service throughout the whole year.

Parents will be asked to provide a broad brimmed SunSmart hat which protects the face, neck, ears and crown of the head for their child and encourage them to wear it.

Parents will be asked to provide appropriate SunSmart clothing that protects as much of the skin as possible.

Educators will ensure that all children, staff and visitors attending OSHC are protected from the harmful UV effects of the sun during the recommended times of the day.

The Director will:-

- Ensure all sun protection measures are applied to children, staff and visitors while outside when the UV level is 3 or above, which in Queensland, is all year round including:-
 - Wearing adequate SunSmart clothing and use shaded and/or covered areas when possible
 - Wearing broad-brimmed hats that protect the face, neck and ears;
 - Applying SPF 30+ broad-spectrum sunscreen
- Ensure all staff, children and visitors act as positive role models and demonstrate SunSmart behaviour when attending the service.
- Ensure that adequate shade is provided during outdoor events including excursions when possible

Ongoing feedback and support will be sought from parents and the school community for the Sun Smart policy and its implementation, through newsletters, parent meetings etc.

Jindalee School Age Care Program recognises the need to ensure the safety of all children whilst accessing the toilet and acknowledges that from time to time, children may require additional support and assistance if they are unable to toilet independently. Thus the service management seeks to ensure that the personal health, hygiene and safety of children and educators is supported, through the consistent implementation of the following procedures to protect children from risk of harm or injury.

Relevant Laws and other Provisions

The laws and other provisions affecting this policy include:

- Education and Care Services National Law Act, 2010 and Regulations 2011
- Duty of Care
- Commission for Children and Young People and Child Guardian Act 2000

Should the primary facilities become unavailable then other toilets may be accessed, however when these are out of sight, children will be escorted to the toilet by an educator.

Educators shall be required to support the personal hygiene of children with toileting when it becomes known to them that a child is in need of assistance.

A toileting kit will be available, to assist educators with toileting issues. The kit includes gloves, wipes and appropriate bags for soiled materials.

Children who are frequently troubled with personal hygiene and toileting needs shall be requested to provide spare clothes and pull ups if necessary.

Escorting children to the toilet

Educators shall observe practices to ensure that they are not placing themselves in a compromising situation while escorting children to the toilet area.

Educators will ensure that the service communication procedures are followed when escorting children to the toilet in another area.

Assisting children with toileting

Where possible, a second team member shall be called to be present during the toileting support. Gender and developmental consideration should be given to the situation in ensuring the most appropriate educators manage the situation and that the process is open and transparent.

Educators shall support children's emotional needs, demonstrating empathy and compassion and should not, under any circumstances, cause further embarrassment to the child. Nor should they become forceful in their assistance to children.

Staff shall assist children to toilet and follow hygiene procedures by:

- Encouraging children (if able) to clean themselves independently through provision of suitable wipes and means of disposal (wipes are not suitable for flushing).
- Ensuring hands are cleaned and sanitised and gloves are generally worn.

All staff shall be provided with training and support to assist in toileting children, particularly in the case of children with high support needs. This may be through written communications, direct training and/or meetings.

Toileting on excursions

For the purposes of Excursions, the following procedures shall be implemented to ensure the health and safety of children while using the toilet:

- A risk assessment will be conducted prior to the excursion with all educators required to read and sign off.
- On arrival at the venue, the toilet cubicles shall be checked for safety by an educator before being used by the children.
- A minimum of two educators shall be present when possible to supervise children's use of the toilets.

In emergency situations, OSHC educators may be required to administer medication to preserve the life, safety and health of a student. These emergencies may occur for students with diabetes, epilepsy, anaphylaxis and asthma. The possible medication requirements include administering inhaled medication for asthma, prescribed medications for epilepsy, diabetes and/or anaphylaxis. Medications for diabetes and anaphylaxis are usually injected by a pen device and are not intravenous.

Having an Australian system means that actions can be taken in Australia before a change of phase is declared by the World Health Organisation. The description of each phase is shown in the following table:

Australian phase	Description	
ALERT	A novel virus with pandemic potential causes severe disease in humans who have had contact with infected animals. There is no effective transmission between humans. Novel virus has not arrived in Australia.	
DELAY	Novel virus has not arrived in Australia. OS4 Small cluster of cases in one country overseas. OS5 Large cluster(s) of cases in only one or two countries overseas. OS6 Large cluster(s) of cases in more than two countries overseas.	
CONTAIN	Pandemic virus has arrived in Australia causing small number of cases and/or small number of clusters.	
SUSTAIN	Pandemic virus is established in Australia and spreading in the community.	
CONTROL	Customised pandemic vaccine widely available and is beginning to bring the pandemic under control.	
RECOVER	Pandemic controlled in Australia but further waves may occur if the virus drifts and/or is re-imported into Australia.	
PROTECT	Pandemic virus is mild in most but severe in some and moderate overall. This phase sits alongside CONTAIN and SUSTAIN phases with a greater focus on treating and caring for those more vulnerable to severe outcomes.

4.16 Vehicle Restraint Policy

Jindalee School Age Care Program promotes safety in the transporting of children in vehicles during the operation of program activities. The following measures, articulated through procedure, support legislative attempts to reduce the effects of serious injury or death in the event of a crash.

Relevant Laws and other Provisions

The laws and other provisions affecting this policy include:

- Education and Care Services National Law Act, 2010 and Regulations 2011
- Queensland Government, Child Restraint Legislation, Department of Transport and Main Roads (Effective 11 March 2010)
- NQS Area: 2.3.1, 2.3.2; 6.1.1; 7.1.2, 7.3.5.
- Policies: 3.5 Excursions, 3.6 Transport for Excursions, 10.9 Risk Management and Compliance.

In the case of children being transported in a private vehicle during the operation of the program, the service shall provide appropriate child restraints in accordance with recommendations for children 4-7 years, which are a booster seat with H-harness or a booster seat with a secured adult seatbelt. Booster seats provided shall be Australian Safety Standard approved. (Australian Standard AS 1754 Child Restraint Systems Used in Motor Vehicles.)

The following requirements will also apply:

- A child may stop using a child restraint once they turn seven or if their eye level is above the back of the booster seat;
- A child aged between four and seven years of age cannot sit in the front row of a vehicle that has more than one row of seats unless all the other seats are occupied by children under seven years of age;
- Should the back seat have two child restraints fitted and there be no room for a third child restraint, a non-tethered booster seat or booster cushion can be used, providing the child using the booster seat is between four and seven years of age.

In the case of children being transported in a taxi during the operation of the program, the following guidelines shall be followed:

children under the age of seven must not be seated in the front row of seats in a taxi. Taxi
drivers will be responsible for ensuring that children between the ages of seven and sixteen

are properly restrained in a seatbelt. The service shall support the taxi driver in meeting such requirements;

• The service shall ensure that children up to the age of seven are appropriately restrained when using Taxi transport, whether in an approved child restraint or adult seatbelt. This may mean that the service provides their own restraints, however there is no requirement in a Taxi to do so.

In the case of children being transported in a bus during the operation of the program, the following guidelines shall be followed:

- Bus transport with 13 or more seats does not need to be fitted with seatbelts and child restraints are not required.
- The restraint provisions for four to seven year olds apply to a bus that has 11 or 12 seats with all passengers having to wear seat belts if they are fitted.

The indicative weight specified for this age range in the restraint laws is 14 to 26 kgs. Children who are four (or more) years of age but below the indicative weight range may be recommended the forward facing child restraint with built-in harness. 4.17 Childhood Immunisation Policy

Jindalee School Age Care Program acknowledges their obligation under the *Education and Care Services National Regulation 2011*, in ensuring that children are free from risk of harm. This extends to limiting exposure to health and safety risks that may arise from the incidence of vaccinepreventable diseases. Upon enrolment, the service shall request parents/guardians to provide their child's immunisation history statement, in order to determine if enrolment and subsequent attendance will be accepted.

Relevant Laws and other Provisions

The laws and other provisions affecting this policy include:

- Education and Care Services National Law Act, 2010 and Regulations 2011
- Public Health Act 2005 (QLD)
- A New Tax System (Family Assistance) Act 1999
- Duty of Care
- NQS Area: 1.1.5; 2.1.1, 2.1.3, 2.1.4, 2.3.2; 4.2.1; 6.1.1, 6.1.3; 7.3.1, 7.3.2, 7.3.5.

The service will establish risk management procedures relating to monitoring and managing the spread of vaccine preventable diseases at the service. Procedures may include:

- Appropriate signage for families regarding infectious disease outbreak; and
- Limiting attendance for vulnerable children during times of infectious disease outbreak (if enrolment has been accepted).
- Vulnerable Children

Specific conditions may include restricting care during an outbreak of infectious disease at the service.

Families of vulnerable children whose enrolments have been accepted (with or without conditions) will not be eligible for Child Care Benefit (CCB) or Child Care Rebate (CCR) subsidies.

PLEASE SEE FACT SHEET ON NEXT PAGE

Changes to Childhood Immunisation Laws

Managing existing enrolments - Information sheet for Queensland OSHC services

From January 1 2016, new state and federal laws relating to childhood immunisations come into effect. Under these laws a child's immunisation status will affect the family's eligibility for family assistance payments (in particular CCB and CCR) and may limit their childcare options.

Services who would like to implement the provisions as a result of the changes to the childhood immunisation laws must have a policy on the enrolment and attendance of children whose:

- Immunisation status is not up to date; and
- Parents who do not provide an immunisation history statement.

To exercise these discretionary powers and to be legally protected, your service must:

- Be satisfied that the child has passed one of the vaccination milestones under the National Immunisation Program Schedule Queensland (printable poster available at <u>https://www.health.qld.gov.au/publications/clinical-practice/guidelines-procedures/immunisation-schedule.pdf</u>);
- Request the parent provide an immunisation history statement showing that their child's immunisation status is up to date;
- On making the request, inform the parent of the potential consequences for the child's enrolment or attendance, if their child's immunisation status is not up to date; and
- Give the parent at least four weeks to provide the immunisation history statement.

If the parent does not provide an immunisation history statement within the requested timeframe, the service can:

- Cancel enrolment of children whose immunisation status is not up to date;
- Refuse attendance of children until proof of immunisation status is provided;
- Impose another condition on the child's enrolment or attendance until proof of up to date immunisation status is provided.

Parents are encouraged to participate in this approach to nutrition for their children.

Development and review of Nutrition Policy

A detailed nutrition policy will be developed with opportunities for consultation with families, educators and the Management Committee.

The policy will be based on information from recognised health authorities, which may include any or all of the Commonwealth or State Government Health Department and non-government organisations with recognised expertise in nutrition (eg Nutrition Australia, Heart Foundation, Queensland Health).

The Director will be responsible to regularly review, and when necessary ensure that the Service obtains formal reviews of this Nutrition Policy from a recognised nutrition authority or a person duly qualified to advise in relation to it.

Recommended food

Information about healthy food choices is gathered from recognised authorities (i.e. Dietary Guidelines for Children and Adolescents in Australia (NHMR) 2003, Nutrition Australia).

Services managed by school Parents and Citizens Associations may also choose to reference the Queensland Education initiative 'Smart Choices, Healthy Foods'.

Provision of healthy and varied food choices

Where the Service provides food, educators will seek to provide food:

- which is healthy, balanced, varied, age appropriate and consistent with Dietary Guidelines for Children and Adolescents in Australia (NHMR) 2003;
- which includes a good balance of fresh foods, as opposed to pre-packaged and prepared foods;
- which as far as reasonably possible, meets the dietary needs of children with special dietary needs of which the Service has been made aware, or becomes aware.

Families, children and educators are encouraged to contribute ideas for the menu.

Where breakfast and afternoon tea are provided, a menu for the week will be displayed. During vacation care, children will be required to supply their own morning tea, afternoon tea and lunch from home.

The Director and/or Coordinator will discuss with all parents any food allergies and restrictions (including cultural or religious) which are required by the parent to be enforced at the Service. Details of these restrictions will be noted on the enrolment form and passed on to educators. Food allergies or restrictions which are based on health reasons should be accompanied by a letter from a medical practitioner or other health professional.

The Director and/or Coordinator (and educators) will seek to accommodate all such reasonable nutritional needs of a child by giving appropriate directions to educators in relation to that child.

Where children have special dietary needs which is not reasonable that the Service meet, the Director and/or Coordinator will consult with parents and where necessary, the meal will be supplied from home.

When parents provide food for their child, healthy food and drink choices are encouraged.

The eating environment

Social interactions will be encouraged during meal/snack times. Educators will spend this time interacting with the children and model good eating and social habits.

Children will be encouraged to use effective hand hygiene, prior to regular service meal times.

To ensure safety, children will be encouraged to sit whilst eating and/or drinking.

Children eating food at the service, outside the regular meal times of the service, will be encouraged to use effective hand hygiene and to sit while eating.

Serving of food

Independence will be fostered by encouraging children to serve themselves food, under supervision from educators, using appropriate equipment.

If educators need to serve food to the children, tongs will be used.

At meal/snack times, educators will encourage children to try different foods and to take appropriate portions.

Involving children

Educators involve and consult children when planning the menu and/or food activities and experiences through group meetings and/or children suggestions.

Educators will facilitate children being involved in the preparing and serving of food through 'serveyourself' routines and activities such as breakfast meals.

Educators will encourage and involve children in conversations and routines that promote healthy eating and good nutrition.

Drinking Water

The Director and/or Coordinator will ensure that children have ready access to cool drinking water.

Educators will encourage children to drink extra water during the summer months, supplying their own water bottle if necessary.

Educators will encourage parents to provide children with extra water to take with them on excursions.

Diverse cultural experiences

Food provided includes food from various cultures particularly those represented in the service and local community.

Families from other cultures within the service or wider community may be invited to participate in the program, providing children with food experiences from their own culture.

Food awareness activities will be chosen from a variety of cultures and may include:

- Different ways of serving the food (ie chopsticks);
- Different varieties of foods (eg feta cheese instead of cheddar);
- Foods that may have significance within their culture (eg Anzac biscuits and their origin).

Communication with families

The food provided by the service is planned ahead and menus are displayed in a prominent place for families and children.

Where parents are required to provide food for their children, the service will provide relevant nutritional information as well as suggestions for healthy food and drink choices.

If a child has special food needs eg cultural requirements or food allergies, the service will work with parents to develop a plan to meet the child's needs. Parents will inform the service of any changes.

Professional development

Service management will ensure that educators are provided with adequate training and instruction in relation to food handling and storage procedures.

Educators will be encouraged to attend professional development on food and nutritional related issues.

The service will ensure that information and/or fact sheets relating to food safety and nutrition are readily available for educators.

Food Experiences

Food will not be used in the service as punishment or reward for children.

Educators will encourage children to learn about food and nutrition through:

- Food awareness authorities being included in the Service program (eg Nutrition Australia);
- Engaging children in conversations about healthy lifestyles and good nutrition;
- Inclusion of children in service meal routines.

Compliance under this policy shall be self regulated. (The service may access and use the resource "Know Your Food Business – a self assessment guide to the 'Food Safety Standards' available from Queensland Health).

The Director and/or Coordinator (or other appropriately delegated senior educator) shall work through the self audit tool annually, ensuring compliance with all necessary requirements.

The service shall ensure that the food auditor is professionally accredited and licensed to carry out food audits under the Food Act 2006.

Where the service is not required to be licensed as a food handling business under the *Food Act 2006*, compliance shall be achieved through self assessment, in accordance with the Queensland Health resource 'Know Your Food Business'.

The service will conduct food audits on a regular and cyclic basis.

Definition

'Social Networking Media': refers to any online tools or functions that allow people to communicate via the internet. This includes, but is not limited to, applications such as:

- Social networking sites: Facebook and Linkedin;
- Video and photo sharing websites: YouTube, Flickr;
- Blogging and micro blogging sites: Twitter and Bebo;
- All forums and discussion boards;
- Wiki's: Wikipedia;
- E-learning portals (i.e. www.mytimeourplace.com.au).

Responsibilities

Good judgement and common sense must be used to ensure the reputation of the service, its employees and stakeholders are not harmed during the use of social networking media. Once something is placed online, it spreads quickly and cannot be retracted.

While the Service does not wish to control personal private information released outside of work hours, any image, comment or status distributed by an employee that damages the reputation of the Service, its employees and other stakeholders, will be treated as a serious breach of this policy and may result in disciplinary action.

When using social networking media, the following guidelines must be adhered to at all times:

- Children of the service should not be included as 'friends' on social networking sites;
- Offensive comments are not to be made about fellow employees online. This will be viewed as cyber bullying. Even if comments are not made directly, they may still be viewed indirectly by multiple people;
- The service name shall not be mentioned in online posts and statuses. This is the best way to ensure that the service's reputation is safeguarded. If it is necessary for an employee to speak about their place of employment online, they are to refer to 'work' and not to the service name;

- Work-related problems, tasks and ventures should not be discussed online. Confidentiality must be maintained at all times;
- Be clear that your personal views are yours, and not necessarily the views of the service management and/or stakeholders;
- Photos of employees in work uniform are not to be placed online; except in the case of the Service Facebook Page, Educator Facebook Page or on the Jindalee School Age Care Program website.
- If anything is posted online by others which may harm the reputation of the service, its employees or stakeholders, and you have the capacity to delete such information, the Approved Provider asks that you do so immediately.

If something potentially dangerous to the image or people of the service is found online, bring this to the attention of the Director. This should be done immediately and the information should not be shared with others.

An employee is 'fit for work' if physically able to carry out their duties, as per their job description.

Responsibilities

The Director will:

- Be responsible for assessing the fitness for work of employees under their control, while they are on duty;
- Immediately stand down any employee suspected to be under the influence of alcohol or other drugs;
- Immediately stand down any employee that is not physically fit and capable of performing their duties.

Any such employees must not return to work until they are able to demonstrate that they are fit to work.

Each employee is responsible for:

- Ensuring that they are not in an unfit state for any reason, including physical limitations and/or the adverse effects of alcohol or other drugs;
- Notifying the Director of any concerns that their fitness for work may be impaired;
- Ensuring that any prescription or non-prescription medication is taken safely and in accordance with the requirements as listed further in this policy;

 - Any situation in which other individuals are believed to be unfit for work;
 - The unauthorised possession or consumption of alcohol or other drugs on site or during work;

All such information will be dealt with in strictest confidence.

Employees should also be aware that rights to workers compensation or a common law claim may be affected if they are involved in a work related accident while under the influence of alcohol or drugs.

Alcohol

An employee must not be under the influence of or be affected by alcohol while on duty. This means that all employees are expected to have a 0.00 blood alcohol content at all times they are required to undertake the duties and responsibilities associated with their contract of employment.

Proof of which may include the undergoing of another blood alcohol test, at the employees expense.

An employee is prohibited from operating any machinery or equipment, including any motor vehicle, if they are under the influence of alcohol.

If any employee becomes aware of behaviours from which they might draw the conclusion that another employee is under the influence of drugs, the Director or Approved Provider MUST be contacted immediately.

If concerns of this nature are raised regarding an employee, the Approved Provider may request a drug test, at the management expense. This means that employees are expected to return a negative urine test for the following substances:

- Amphetamines;
- Cannabinoids/THC/Marijuana;
- Opiates/Barbituates;
- Benzodiazapimes;
- Cocaine/Methadone;

If an employee tests positive for any other substance, the Approved Provider may obtain relevant expert advice to determine whether the employee will be considered fit for work.

If an employee tests positive for drugs they will be considered unfit for work immediately. For the employee to return to work, the approved Provider must be satisfied that they are fit for work. Proof of which may include the undergoing of another urine drug test, at the employees expense.

An employee must not cultivate, sell or have in their possession or control any unlawful drug or drug taking implement anywhere on the Outside School Hours Care premises or grounds or while on duty.

If the Approved Provider becomes aware that you have, or have had, in your possession or control, or are cultivating or supplying unlawful drugs or drug taking implements, whether for profit or otherwise on Outside School Hours Care premises or grounds or while on duty, they will notify the police and actively assist them in their enquiries.

Any drugs prescribed by a medical practitioner must be used in accordance with medical advice. Any non-prescription drugs must be used in accordance with manufacturers' recommendations. If an employee is taking prescription or non-prescription drugs, which could cause drowsiness or otherwise affect their fitness for work, they must advise the Director so that their ability to work safely can be monitored. If necessary, a medical opinion may be obtained.

The unauthorised possession or consumption of drugs at the workplace will result in disciplinary action and may result in termination of employment.

An employee who does not co-operate fully with the administration of an alcohol or drug test without a legitimate reason will not be able to return to work until they have co-operated and provided a breath and/or urine sample for analysis.

Employees who refuse will be required to take unpaid leave until they co-operate. Refusal to co-operate may result in disciplinary action.

Interference with testing – the actual or attempted adulteration, substitution or other interference by a person with a test sample or result, will result in disciplinary action which may include termination of employment.

Disciplinary Procedures

The Approved Provider may take the following disciplinary action where an employee is found to be under the influence of alcohol or other drug;

- Warning.

The appropriate disciplinary action will depend on the individual circumstances of each matter. In making any decisions, the Approved Provider will take into account factors including, but not limited to:

- The seriousness of the employees behavior;
- The risk posed to the safety of employees and others; and
- Any previous breaches of this policy.

An employee who receives a warning will be counseled by the Approved Provider regarding:

- The 'Fit for Work Policy' and the obligations and responsibilities under it;
- The serious and unacceptable nature of the person's behavior;
- The risk posed for the safety of the employee and others;
- The employees responsibility to demonstrate that the problem has been effectively addressed;
- The consequences for future breaches of this policy; and
- The reasons why the person has used alcohol or other drugs to the extent that they are in an unfit state.

The employee will be advised that they may be monitored for a period of time to ensure that the problem has been addressed and that during this period they may be subject to periodic alcohol and drug testing.

The employee will receive a written warning which will reflect the key points covered in this process. A copy of this will be placed on their personnel file.

Employees will not be paid for the period which they are unfit for work.

An employee who receives a final written warning will be counseled by the Approved Provider as set out above and will be required to demonstrate that the threat to work performance and/or safety has been effectively addressed before they are permitted to return to work.

The final written warning will have the effect that any further breaches of this policy may result in termination of their employment. A copy of the warning will be placed on their personnel file.

Fatigue

Work related fatigue may arise from situations requiring concentration for extended periods during work hours, working in extreme temperatures or working in high-risk situations.

Non-work related fatigue is generally the result of poor quality or inadequate sleep which may be caused by a number of reasons, including sleep disruption, ill family members, distress, domestic responsibilities or a second job.

The Director is responsible for ensuring roster cycles are monitored and reviewed to address the potential for fatigue, especially among employees engaged in split shifts and/or potentially hazardous activities.

The Director is responsible for ensuring shift lengths are monitored to prevent excessive time working. Provision will be made on all shifts for appropriate rest breaks during and between shifts to ensure that employees have adequate opportunity for rest.

The Director will take all practical steps to asses and manage the work environment to minimise the impact of fatigue.

The Service will provide appropriate information and education on the causes and management of fatigue and will arrange for all individuals to be made aware of their responsibility to prevent impairment of their fitness for work by fatigue.

Physical Ability

The Director is responsible for ensuring that all employees are fit and able to perform their duties, when arriving for their shift.

To be considered physically capable of performing their duties, the employee must be able to move about freely, particularly in the case of emergency or risk of harm to others.

As per their job description, the employee MUST be able to interact with the children and actively contribute to the activities, experiences and routines of the Service. This may include, but not be limited to physical activities such as walking, running, standing, crouching and kneeling.

Confidentiality

Confidentiality is vital in promoting the effectiveness of this policy and all reasonable efforts, consistent with safety, legal requirements and common sense, must be made to maintain an individual's privacy.

Information relating to an employees' fitness for work must be transmitted, used and stored in a confidential manner in accordance with the Information Handling Policy (policy 10.8).

The disclosure of confidential information may be required to those persons who have a legitimate 'need to know'. Typically this will be only to those persons who have a responsibility for ensuring the employees' safety and performance. Disclosure will be limited to the information necessary to address the situation. The Approved Provider/OSHC Director will inform the employee as to:

- The reason or need for disclosure;
- To whom the disclosure will or has been made; and
- The extent of information that will or has been disclosed.

APPENDIX A

Checklist: National Quality Standard elements reflected in Policies and Procedures

This checklist is designed to assist users of this Manual to check against the 7 Quality Areas that form part of the National Quality Standards (NQS).

In Chapter 5 you will find sample policies and procedures that will help you comply with the specific requirements of NQS. For an explanation of the National Quality Standards, refer back to Chapter 3 of the Manual.

Once you develop your own 'Policies and Procedures Manual' for your Service, drawing on the samples given in Chapter 5 where appropriate, you can then use this Schedule to create your own checklist, listing which of your policies and procedures reflect the NQS requirements.

Always remember that this Manual assumes compliance with the minimum National Quality Standard level (see Chapter 3 for an explanation of this system). If your Service chooses to go to higher compliance levels, you should check with ACECQA for the standards you must meet.

Note: This checklist is prepared based on the Guide to the National Quality Standard, available as at the date of publication.

You should check at <u>http://www.acecqa.gov.au</u> whether the Guide to the National Quality Standard, or any of the 'Quality Areas' or 'Elements' have changed since the date of this publication.
